Subject: Monday Meeting with Ford on DEF Inducements

Please find attached a paper on the DEF inducement topic that Ford intends to discuss with you in our meeting scheduled for next Monday morning (1/27/14).

Joel,
Ford will bring printed copies, but please forward to any EPA participants that I may have missed - particularly if calling-in so that they can print copies to reference for the meeting. I believe Ford will have four participants who all plan to be present in Ann Arbor for the discussion.

Give me a call at the number below if there are any questions or further arrangements we need to discuss ahead of the meeting. Otherwise, we'll look forward to seeing you then.

Todd Crompton
